If your team qualifies, there will also be a best-of-7 game play-off, followed by a best-of-7 game Championship Series. The Regular Season is played entirely against the computer.

During Regular Season play, once you have selected your team, you will then see the season schedule.

To alternate between the 2 months of the schedule, press either the LEFT or RIGHT CONTROL PAD ARROW.

Except for close-ups at the bases, the game is viewed from 2 different perspectives.

1. For pitching and hitting, the perspective is from behind the catcher.

2. For fielding, the perspective is from the field looking toward home plate. (The specific view varies depending upon where the ball is hit.)

The controls always stay the same, however. No matter what view you are seeing the field from, the controls always remain "standard". What does "standard" mean? It means the CONTROL PAD ARROWS will always represent the bases as follows:

Once the ball is hit, the perspective changes to the fielder’s perspective. Which specific view of the infield, outfield, base, or bases depends upon where the ball was hit.

NOTE: Though the screen is seen from the fielder’s perspective, the radar display in the corner always shows the runners’ positions as seen from the batter’s point of view. Home is at the bottom, 1st is to the right, 2nd is at the top, and 3rd is to the left.

TO MOVE YOUR FIELDERS, press the appropriate LEFT, RIGHT, UP or DOWN CONTROL PAD ARROW. To move diagonally, press in-between the arrows.

NOTE: Regardless of the fielder’s point of view, the radar screen always displays the position of the base runners from the “behind home plate” perspective.
When a close play occurs at any of the bases, the perspective switches to a close-up view of the baseman and the runner sliding in. The CONTROL PAD functions also change depending upon whether you are the baseman or the runner.

**BASEMAN** - To tag the runner, you must judge which way and when he will slide. Press the appropriate CONTROL PAD ARROW to "slap on the tag" in the direction you think he will slide.

LEFT - left side of the bag  
RIGHT - right side of the bag  
DOWN - center of the bag

**BASE RUNNER** - To avoid being tagged, you must determine which way the fielder is going to go and slide "around" his tag.

LEFT - slide to the inside of the bag  
RIGHT - slide to the outside of the bag  
DO NOTHING - and you will automatically slide to the center of the bag.

**NOTE:** Once you have committed to a direction for the tag or slide, you cannot change it. Like the game, "chicken," this is a challenge to see who lasts the longest without making the first move.
When the regular season starts, you will see that your team is situated two (2) games out of first place in your sub-division (eg. National East, National West, American East, or American West). In order to capture first place and move onto the Division Championships you must obtain the best won-lost record of the season.

**NOTE:** If there is a tie at the end of the regular season, there will be a one (1) game tie-breaker to determine who advances.

If you manage to win the best-of-seven Division Championship...it’s on to the Championship Series between your team and the top team from the other division. This series is also a best-of-seven games.

**Note:** The standings function just like real baseball standings. While your team is playing so are other teams in your division. The results of their games are random and determined by the computer. You will only learn your position compared to the other teams when you view the standings screen at the conclusion of each day’s play.
From a single head-to-head game to a full season’s play, get set for all the excitement, action, and in-the-field views of real baseball!

Your team has the drive and the talent to go all the way! All you have to do is shut down the division’s big hitters, get to their pitchers early, and pile up some runs. Hey, nobody said it was going to be easy!

The “Star Spangled Banner” is over. Pitcher’s ready. Ump’s at the plate... PLAY BALL!
